EDUCATION

THE LNMIIT

B.Tech Computer Science CGPA: 9.34 / 10.0

Jaipur, India

Aug. 2022 – May 2026

GNNPS

CBSE - Class XII: 94.2% — Class X: 97.2%

Gorakhpur, India

2018 – 2022

EXPERIENCE

SOFTWARE ENGINEER

Whatfix Private Limited

Jan 2026 – Present

Bengaluru, India (Onsite)

- Designed and developed an end-to-end AI automation pipeline across **Spring Boot microservices** and **Apache Kafka**, reducing a manual workflow from **1 week to under 3 hours (95%+ reduction)**.
- Built a distributed multi-agent AI workflow with structured inference and context propagation to automate UI understanding and metadata generation across enterprise web applications.
- Engineered a browser automation pipeline using **Kafka**, **Playwright**, and **BrowserStack** for authenticated DOM extraction and screenshot capture, enabling scalable AI-powered analysis of web applications.
- Developed an automated AI evaluation framework that reduced manual validation effort by over **10x**; built reusable Java HTTP client libraries and shared request abstractions to improve maintainability and accelerate development.

PROBLEM SETTER & TECHNICAL CONTENT REVIEWER INTERN

InterviewBit Software Services Pvt. Ltd. (Scaler)

Sep 2025 – Dec 2025

Bengaluru, India (Remote)

- Developed and validated 100+ coding problems (C++, Java, SQL) and MCQs for Scaler School of Technology and AI Companion platform.
- Reviewed and optimized technical content, video editorials, and learning scripts to ensure clarity, accuracy, and curriculum alignment.
- Created 20+ cue cards and structured materials for High-Level Design and Machine Learning modules, improving learner engagement and content quality.

CONTRACT ENGINEER

Datacurve (YC W24)

July 2024 – April 2025

Remote

- Designed 200+ DSA and system design questions used to fine-tune LLMs; adopted by OpenAI and other clients.
- Maintained <1% error rate in dataset annotations; helped boost AI model F1 scores by 5–10%.

PROJECTS

RES-U-ME | ML-based personalized job recommender | [Github](#) | [Live Project](#)

Jan 2024 – Aug 2024

- Developed full-stack web application using React and Node.js, achieving 98% uptime and supporting 1000+ users.
- Trained NER and K-Means models using BERT, achieving 80%+ accuracy on job-resume matching.
- Optimized backend pipelines to reduce data processing latency by 25%, enhancing user experience.

FilmFolio | Film database with user sessions | [Github](#) | [Live Project](#)

June 2024 – July 2024

- Designed responsive frontend with React and Material UI, decreasing bounce rate by 30%.
- Engineered backend with Express.js and MongoDB, supporting 500+ concurrent users.
- Integrated TMDB and IMDb APIs to improve film metadata coverage by 40%.

InterViewPad | Real-time collaboration tooling to enhance enterprise hiring. | [Github](#) | [Live Project](#)

May 2025 – June 2025

- Built real-time code collaboration using WebSockets (Socket.IO), reducing sync delay to under 100ms.
- Enabled in-browser execution of Java, JavaScript, Python and C++ code; reduced execution errors by 35%.
- Implemented live collaboration features, increasing session engagement time by 2.5x; deployed on AWS EC2 / Render / Vercel

TECHNICAL SKILLS

Languages: Java, C/C++, JavaScript, Python, SQL

Backend / Distributed Systems: Spring Boot, Apache Kafka, REST APIs, Microservices, Node.js, Express.js

Frontend: React.js, Redux, HTML/CSS, Tailwind CSS, Material-UI

Developer Tools: Git, GitHub, Docker, Playwright, BrowserStack, Claude Code, VS Code, Postman, LaTeX, Redis

AI Systems: LLM Pipelines, Multi-Agent Systems, AI Agents, AI Evaluation, Structured Outputs, Multimodal AI, Context Engineering, Model Routing

Core CS: Data Structures and Algorithms, OOPs, DBMS, Operating Systems, Computer Networks, System Design

ACHIEVEMENTS

Academic Excellence: Ranked in the Top 10 of college batch with a CGPA of 9.4.

Competitive Coding:

Codeforces: 500+ problems solved (Rating: 1678 Expert) - Top 2% worldwide.

LeetCode: 500+ problems solved (Rating: 2180 Guardian) - Top 1% worldwide.

CodeChef: 50+ problems solved (Rating: 1982 4 star) - Top 3% worldwide.

Hackathons: Participated in several coding competitions and hackathons
